

LG HI-MACS Farben

Die LG HI-MACS Farbpalette umfasst ein breites Spektrum! Die Farben bieten optimale Voraussetzungen für anspruchsvolle Projekte, egal ob in der Küche, im Sanitärbereich, für Möbel oder im Gesundheitswesen - wie immer vielseitig, qualitativ hochwertig, hygienisch und haltbar.

Welche Farbe ist die Richtige für Sie?

Bei dunklen und stark pigmentierten Farben sieht man Kratzer, Staub und Abnutzung stärker als bei helleren texturierten Farben. Daher empfehlen wir diese Farben nicht für Anwendungen zu verarbeiten, deren Oberfläche stark strapaziert wird (wie z. B. Arbeitsplatten). Diese Farben sind eher für Anwendungen mit leichtem Oberflächenkontakt geeignet. Wir beraten Sie gerne bei der Wahl der idealen Farbe für Ihre Anwendung.

Bitte beachten Sie...

... dass die Farbwiedergabe von der Originalfarbe des Musters unter Umständen leicht abweichend sein kann.

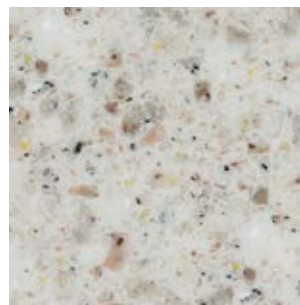

... dass für Küchen nicht alle Farben geeignet sind!
